### Wash basin – Blue Responsibility

01: With Burgbad's rc40, the wash basin can be placed anywhere in the room.

Source: Burgbad AG

02: The wash basin's counter top is made of "self-healing" nanotech material.

Source: Burgbad AG

03: Viega's wash basin element allows the wash basin to be continuously height-adjusted at the push of a button.

09: Thanks to the clever lighting technology offered by KEUCO's EDITION 400 illuminated mirror and mirror cabinet, users can select between bright white daylight all the way to a warm white effect, depending on personal preference, time of day and use.

Source: Keuco GmbH & Co. KG

10: Keramag offers a cabinet system with shorter shelves. This has the advantage that users can reach the wash basin while the cabinet doors are open, even when sitting down.

11: With column wash basins from the DEA series, your wash basin becomes a real eye-catcher in the bathroom.

Source: Ideal Standard GmbH

12: Tap water never comes in contact with the body of the valve, thanks to IdealPure technology. This ensures even purer water for cooking, rinsing and drinking.
