Easy-care materials - Blue Responsibility

01: The cast mineral washbasins from the Coco range from Burgbad are a charming mediator between two worlds: calm and clear, but still highly design oriented and functional.

Source: Burgbad AG

02: The public toilet facility below the Alexanderplatz square in Berlin was equipped with custom made washbasins and automatically closing electronic taps by Franke Aquarotter.

04: Ideal Standard provides age appropriate toilets for nurseries and schools to suit the requirements of even the smallest users. The toilet seats are made of a pleasant, unbreakable thermoplastic material. They are ergonomically shaped and are equipped with side handles where the children can hold on.

09: Contactless activation makes the electronic taps from the Kludi Zenta range particularly hygienic and doses the water precisely.

Source: Kludi GmbH & Co. KG

10: The Schell wall installation shower Linus at the Seebad pool in Schorndorf is equipped with a radar sensor system: It registers the presence of the guest and automatically stops the flow of water as soon as they leave the sensor area. The water keeps running for another 5 seconds to ensure that any soap residue is fully removed.
